Jawahar Navodaya Vidyalaya, East Medinipur
- 12th Standard – Percentage – 68.5
- 10th Standard – Percentage – 83.6

Known technologies

Java, C++, C, JavaScript, HTML, MySQL, Oracle, CSS, SFDC.

Hobby

Coding, Gardening

Projects

Home Automation (Ongoing, WinUI, XAML, C#.NET) →
Users will be able to control electrical devices using IR Remote, Bluetooth or Wi-Fi, and real time status of all the devices will be shown in their mobile phone or laptop.

Local Network File Transfer (Socket programming, JAVA)

→ Efficient for transferring files within large office spaces.

Online Library (PHP, mySQL) → Authors can upload their contents as pdf and viewers can read / download those as per their need.

Word Predictor (C, College Project) → Program will try to predict the word using predefined dictionary as user continues to type.

Typing Speed Calculator (Visual Basics) → Efficient tool for practicing typing.

Inventory Control System (Visual Basics) → Keeps record of inventory (product image can also be added, and all the operations, i.e., addition, deletion, modification are possible). And one can also generate and print the bill for any product(s). Additionally, user can also fetch the record of all the products, which are in low quantity in inventory in one go.

Command Line File Explorer (Simple GUI implemented, C++) → Simple Command Line based program, to perform file operations within system.
